

# 2023 ESG Data Tables

The data behind the following tables can be found on our website at <https://www.crownestate.co.uk/2023-esg-data-tables>

---

Category 5: Waste generated in operations <sup>8</sup>	Emissions from third-party disposal and treatment of waste from our operations	268
Category 6: Business travel <sup>9</sup>	Emissions associated with employees traveling for business	2,832
Category 7: Employee commuting <sup>10</sup>	Emissions related to employees commuting to and from work in non-company-owned vehicles	6,428
Category 8: Upstream leased assets <sup>11</sup>	Indirect emissions from operation of assets leased by Crown Castle that are not already included in Scope 1 and 2	4,584
Category 13: Downstream leased assets <sup>12</sup>	Emissions from our customers' energy use on our infrastructure assets, primarily related to electricity use for telecommunications equipment and HVAC units at tower sites	1,116,621
<b>Total Scope 3</b>		<b>1,615,463</b>

### Fuel Consumption and Refrigerants<sup>13,14</sup>

	2020	2021	2022	2023
<b>Natural Gas (therms)</b>				
Offices and Warehouses	346,122	380,520	362,838	373,030
Generators	8,347	14,725	11,478	7,937
<b>Total Natural Gas</b>	<b>354,469</b>	<b>395,245</b>	<b>374,316</b>	<b>380,967</b>

## Consolidated Electricity Use

	2020	2021	2022	2023
<b>Electricity (kWh)</b>				
Towers <sup>17</sup>	71,753,219	72,485,536	72,518,291	69,019,613
Small Cells and Fiber <sup>18</sup>	67,877,983	72,145,362	65,133,975	60,759,961
Offices and Warehouses <sup>19</sup>	39,680,535	30,766,147	29,959,989	27,796,939
<b>Total Electricity (kWh)</b>	<b>179,311,737</b>	<b>175,397,045</b>	<b>167,612,255</b>	<b>157,576,513</b>
<b>Total Electricity (gigajoules)</b>	<b>645,522</b>	<b>631,429</b>	<b>603,404</b>	<b>567,275</b>
Renewable Electricity Contracted (kWh)	—	—	114,193,000	144,193,000
% Renewable Electricity <sup>20</sup>	0%	0%	68%	92%
% Grid Electricity	100%	100%	32%	8%

	2020	2021	2022	2023
Total towers upgraded to LED	7 U2020
