3. RATES AND CHARGES

3.1 Rates Generally: Individual Case Basis (ICB)

Rates and charges, including minimum usage, installation, special construction and recurring charges for the Company's services are established at

negotiated rates on an individual case basis (ICB) which may vary depending

upon certain factors, including without limitation, the nature of the facilities and services, the costs of construction and operation, the volume of traffic, the length of service commitment by the Customer, and location. The terms of such arrangements shall be set forth in individual customer contracts and Service Orders. Unless otherwise specified, the terms, conditions, obligations, and regulations set forth in this tariff shall be incorporated into and become a part

3.2 Calculation of Rates

321 To the extent that mileage is a rate element associated with a particular

service, the rates for the mileage element are based on airline mileage between rate centers of the calling and called stations. The location of rate centers is based on information provided by the incumbent local exchange carrier. Mileage is calculated using the Vertical and Horizontal (V&H) coordinate system from the National

Exchange Carriers Association Tariff F.C.C. No. 4.

322 When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis.

3.3 Trial Services

The Company may offer new services, not otherwise tarified, from time to time on a trial basis subject to Commission approval where required. Such trials are limited to a predetermined period of time specified by the Commission.
